

What's Your Time Worth?

Fine Living Channel
Episode FLWTW-112

Traveling Car Detailer

Wouldn't it be nice to have an auto detailer come to you so you don't have to spend the time at the car wash? Well, that's just what Joe Fernandez, owner of Superior Shine does. He can make your car look brand new all over again. With his eye for detail Joe and his crew of experienced professional auto detailers turn the car washing experience into no more than a walk to your front door.

And, how about a service that makes kid's lunches as easy as a click of the mouse. Once your order is placed, Kid Chow delivers fresh, healthy food right to your kid's school. No more school lunches or early mornings scrambling to get their lunches together in time. Ordering online makes lunchtime easier.

No time to spend looking for Mr. or Mrs. Right? Meet Julie Ferman, owner of Cupids' Coach who has been personally matching couples for years. Like no ordinary dating service, Julie hand-picks people and then allows you to prescreen before meeting. Then, imagine a salon that comes to your living room. **Be Well Massage Therapy comes in, sets up, gives you a massage and you never have to leave your home. Once finished, you simply extend your relaxed feeling without having to get into your car to get into non-so-relaxing traffic.**
